SENTRY[®]
INSURANCE

At Sentry Insurance, the safety of our policyholders is a top priority. Therefore, we are pleased to present you with these tips from the Motorcycle Safety Foundation – a well-respected organization that provides safety education and training to motorcyclists. For more information on the Foundation's programs, visit www.msf-usa.org.

For your safety and the safety of motorcyclists who share our roadways, please read these 10 tips on the reverse side of this letter and share them with friends and family. And when you get behind the wheel, look twice and watch for motorcyclists. You could save a life!

Thank you.
